How do I configure the active show hours on Room Display? (Eco Mode)

FAQ · https://support.ontimesuite.com/docs/faq-otrd/how-do-i-configure-the-active-show-hours-on-room-display-eco-mode/

Configure the active show hours by editing the Display Configuration assigned to the room. In the Main tab, specify the display hours to define the daily time range shown on the Room Display. Save the configuration, and the changes will be applied to all displays using that configuration.
