Version 6.3.16

Release Notes · https://support.ontimesuite.com/docs/release-notes-otms/version-6-3-16/

What’s New?

Install & Upgrade

- Updated Apache Tomcat to version **10.1.54**.

Bug Fixes

Backend

- Resolved an issue with incorrect time zone handling in catering notifications.

Outlook Catering Add-in

- Fixed an error that could occur when adding a comment to an order.
- Corrected an issue where serving locations were not updated properly.
- Standardised email formatting so catering emails are now consistent regardless of origin.
