Version 11.8.1

Release Notes · https://support.ontimesuite.com/docs/release-notes-otdom/version-11-8-1/

Bug Fixes

Desktop

- Fixed: In the Weekly Planner view, events were not refreshed when switching to a new week if the same weekday in that week contained no events.

Exchange Servlet

- Fixed: Deleting an Exchange user from the configuration no longer triggers errors in the Exchange Servlet backend for certain tasks.Fixed: The placeholder document link in Pollarity no longer contains an incorrect "null" value in the URL for Exchange users.
