Version 6.3.5

Release Notes · https://support.ontimesuite.com/docs/release-notes-otms/version-6-3-5/

What’s New?

Desktop

- Improved view selection in the Group Viewer and added the group name to the top of the viewer.

Backend

- Upgraded Tomcat to version 10.1.46.

Bug Fixes

Mobile

- Fixed an issue where the ‘MS Teams Online Meeting’ slider remained inactive even when a Teams meeting had already been added to the event.

Backend

- Fixed an issue that occurred when using OnTime external modules such as e.g. OnTime Catering with the SQL database hosted on a different server.
