Version 2.0.4

Release Notes · https://support.ontimesuite.com/docs/release-notes-otrd/version-2-0-4/

What’s New?

- Introduced several enhancements to the installation process and upgrade scripts to improve reliability and ease of use.
- Upgraded to Node.js v20.19.1 for improved performance and compatibility.
- Replaced the PM2 Management Tool with a built-in OnTime service solution for Room Display, simplifying both installation and upgrades. Refer to the manual for instructions on removing PM2 from your setup.

Bug fixes

- Re-Added default Images that were lost in the 2.0.0 version
- Resolved an issue where the Microsoft read operation for meeting details did not utilize the cache as expected, resulting in excessive API calls
